REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The subject matter discussed during Applicant initiated interview (dated July 19, 2005) clarified the distinction between the prior art Melkent (US 6,725,080) where the mounted reference device fixed in position relative to the patient's spinal column is separate and distinct from the surgical tool. The substantive of the interview yielded amendment filed July 21, 2005 clearly distinguishing from Melkent. Further search revealed two prior arts Franck et al (US 6,529,765 B1) and Franklin et al (US 6,738,657 B1), which uses mounted markers. However, the mounted reference frame and markers are shown proved to be guide track for introducing surgical tool, therefore, no different than Melkent's teaching. In addition, Melkent, Franck et al, nor Franklin et al anticipate and/or render obviousness to use two separate mounting tools.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
